

The BML BPEL export provides the ability to export the information contained within BML business models to the Business Process Execution Language standard. BPEL is an OASIS standard that specifies business process behavior based on Web Services.

BML BPEL

The BML BPEL export translates the BML HOW model data, specifically the WHAT and WHICH information, into the BPEL format. This BPEL format can then be used by business process tools that consume BPEL.

The BML BPEL export is offered as an add-on to BML W5 and is a standalone license.

HARDWARE & SOFTWARE REQUIREMENTS

COMPONENT	REQUIRED SPECIFICATIONS
Processor	<ul style="list-style-type: none"> • 1-gigahertz (GHz) Intel Pentium-class processor
